

## INDEX TO ARTICLES IN *CONTREBIS*: AUTHORS

*Contrebis* is the journal of Lancaster Archaeological and Historical Society. This index lists alphabetically by surname the authors and co-authors of all the articles in *Contrebis* since Volume 1 in 1973. Co-authors are listed separately. When an author has more than one article in the same volume, the number of their articles in that volume is given in brackets after the year of publication. So, JM Beedon (co-)authored two articles in Volume 8 1980. Volumes 1 (1973), 2 (1974) and 3 (1975) were each published in two parts. Please note that Volumes 9 and 10 were both published in 1982. This list does not include editorials, newsletter items, excursion reports or book reviews. This list will be updated periodically on the *Contrebis* section of the Society's website. This index supersedes the printed index covering Volumes 1 to 28. A separate list of obituaries and appreciations that have been published in *Contrebis* may be found at the end of this index.

Please notify the Editor of any errors or omissions. The full text of all the articles (except the most recent) can be found in the *Contrebis* section of the Society's website – <http://lahs.archaeologyuk.org>
